Communication is the life that fuels the workplace engine. It is difficult to overstate just how important communication can be to a successful organization. At all levels of an organization, communication is the key to maintaining strong working relationships. Open lines of communication build trust between employees which can ultimately lead to increased productivity and a boost in morale. If an open flow of communication exists, where employees feel their voices are heard, they often feel better about themselves and the organization they work for. On the contrary, if there is a lack of communication within an organization, this can produce an unmotivated and disgruntled workforce. Effective communication is the backbone of any successful business.

If this is headline news, that it demonstrates that we do not know enough about AI, because posing an exam is a very AI type problem to solve, and we should not be surprised that AI can do this. It should be something we strive for general. However, we all understand enough about AI to know the limits of what it can and cannot achieve.

This headline draws our attention to the fact that we can build AI that can achieve what we set our ourselves to achieve. The AI will get better and better at this and it therefore is an intelligence to compare to others because to do what we can achieve. We need to change our education systems to value our rich human intelligence.

This need to change what and how we teach is also connected with the way that AI prevent the automation that is changing our lives at work place.

Contents Delivered

The objective of the Seminar on "Opportunities after COVID-19" is to deliver key opportunities emerging across exemplified by the hygiene industry, which have gained prominence during the current crisis. In a country like India, hygiene has for long been a topic of hot discussion, but there has been little action. This is likely to change now with a very real and globally witnessed impact of contamination related risks. Whether it is personal, surface or community hygiene, the playing field has changed already.

For instance, let's talk about hand sanitizers. Before the pandemic crisis era picture, there were a handful of brands and the product was at best considered as form of necessity in certain hospital areas. now of the areas like Clinico-friendly economy, focus on agriculture, youth employment, Dr.Dhaskan, Assoc. Professor, Chennai Institute of Technology shared his views on job opportunities after covid 19.

Biomechatronics In medical Rehabilitation and Health care - 25.07.2020 03.30pm - 04.30pm

AGENDA

EVENT INFORMATION	
Objective	To provide an key technologies in developing bio-robotic systems for medical rehabilitation purposes. It includes a detailed analysis of integral processing, biomechanics modelling, neural and muscular interfaces, artificial actuators, robot-assisted training, clinical setup/implementation and rehabilitation robot control.
Date & Time of the Event	25.07.2020 4:00.30 PM-04.30 PM
Mode of program	Online (Webinar)
Chief Guest	Dr. Mohammad Ibrahim Awad, Associate Professor, Mechanical Engg. Ain Shams University, Egypt
Title of the webinar	Biomechanics in medical Rehabilitation and health care
Participants	Students from CIT

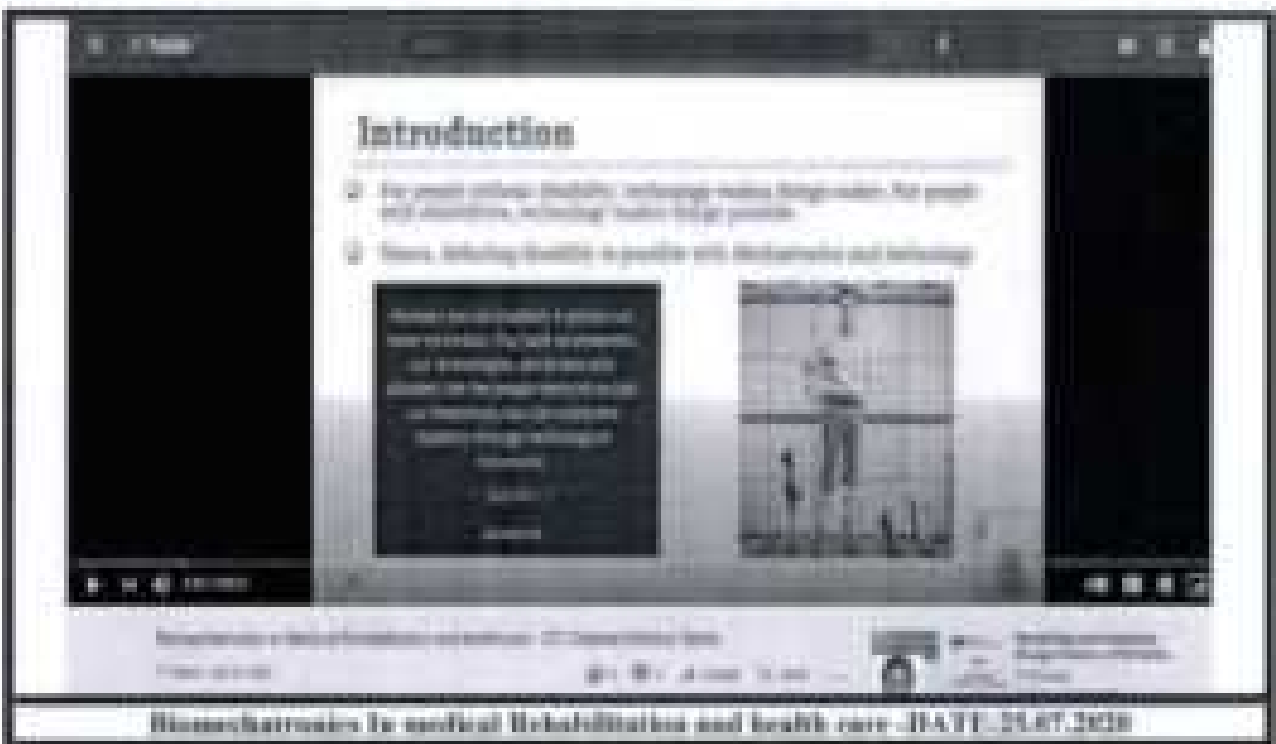

INAUGURAL FUNCTION	
03.30 pm – 03.55 pm	Welcome Address by Dr. Dhivakaran
03.55 pm – 04.05 pm	Inauguration and Key note delivery

REPORT

As a part of students development activities a webinar series "Biomechatronics in medical Rehabilitation and health care" was organized by Chennai Institute of Technology on 27th July 2020 for students and faculty.

1	Name of the event	Biomechatronics in medical Rehabilitation and health care
2	Duration	28.07.2020 @ 01.30PM-4.30PM
3	Chief Guest	Dr. Mohamed Ibrahim Awad, Associate Professor, Mechatronics Engg, Ain Shams University, Egypt
4	Name of the Organizer	Dr. Chinnakrishnan
5	No. of participants	31
6	Mode of program	WEBINAR
7	Youtube link	https://www.youtube.com/watch?v=TS2TRUJZQK5&list=PL96

Contents Delivered

- ✓ Introduction to Disability
- ✓ Importance of Mechatronics and Biomechatronics
- ✓ Physiological Motor Control for health care
- ✓ Impaired Motor control Limitations with impaired motor control
- ✓ Homeotic applications (prostheses, Exoskeletons, Rehabilitation robotics)
- ✓ Level of Assistedness, Functional principles of various non-powered controlled prosthetic lower limbs
- ✓ Future smart wearable robotics, EMG and Linguistics Experimental setup

Outcomes:

Students gained a knowledge on mechatronics and Biomechatronics, Through which students can implement for their project based Activities.

Brief

with a degree in Mechanical Engineering
Degree of Bachelor of Science
Degree Title: Bachelor of Science in Mechanical Engineering

Applicant's Statement

My research interest is in the area of mechatronics systems design, Robotics (Industrial, Rehabilitation, Mobile, Military, and Commercial Robotics), Control systems design, Intelligent control, Assessment of smart structures, Manufacturing processes, Finite element analysis, computer-aided design, advanced manufacturing systems, Processed and fabricated systems, and Simulation. I am interested in interdisciplinary research areas that involve integration of biological systems, mechatronics, simulation engineering, failure analysis, testing, observing, monitoring, engineering, robotics, machine learning, control and mechatronics. This research is interdisciplinary. Studies in biological systems involve the interaction between various systems. The goal is to understand the interaction between these systems and the design of control systems, manufacturing, simulation and testing.

Research Projects

• 2010: "Professority's Research, Self-Learning, Self-Adaptive, Low-Cost, Low-Pollution, and Energy Efficient". The project is interdisciplinary and focuses mainly on efficient computer modeling and simulation (MATLAB & SolidWorks). Research would contribute to a better understanding of the physical analysis, modeling of thermal and biological processing and control of design, process and optimization (SolidWorks, ANSYS, etc.).

FIT INDIA MOVEMENT

25.06.2021

REPORT

Fit India Movement is a nation-wide campaign that aims at encouraging people to include physical activities and sports in their everyday lives. In compliance with this movement, Chennai Institute of Technology also actively participated and supported this initiative in Fit India Movement.

As per the guidelines of NCC Directorate, we have made a fitness plan and plans to incorporate the same in college as a habituate. A plethora of activities was conducted under the campaign of Fit India Movement. To be making students realize that they are citizens of a democratic country which is diverse in terms of culture and religion but there is unity in Diversity.

Activities undertaken by the following cadets:

Relationship Between Body, Mind, Senses, Intelligence and Soul

The diagram shows a central circle labeled 'MIND' with arrows pointing to 'Senses' and 'Intelligence'. A diagonal arrow points from the bottom left towards the top right, passing through the 'MIND' circle. The 'Senses' box contains the text 'Senses are connected to body'. The 'Intelligence' box contains the text 'Intelligence is an independent faculty'. The 'Soul' box contains the text 'Soul is higher than the mind'.

How to control the restless mind -DATE:12.06.2020

How to Control the restless Mind?

- 1. The mind is captured in the state of restless, sensory perception and such low order of material gains by pursuing the egoism. Pg. 6.27
- 2. Mind is restless only in unperceived state of thought, it is considerably more difficult to bring the restless mind, but it is possible by suitable practices and by concentration. Pg. 6.28
- 3. When observed the mind restless due to the thinking and emotions which are seen externally, restless it and bring it into under the control of soul. Pg. 6.29

How to Control the restless Mind?

- We often complain of the habit of using, abusing, overusing and with the misuse of mental power in governing the ego mind. **By A. R.**
- Lord Sri Krishna said, "An uncontrolled mind is as restlessly very difficult to control the restless mind, but it is possible by suitable practice and by discipline." **By A. R.**
- When whenever the mind wanders due to its restless and restless nature, we must control, restrain it and bring it back under the control of the self. **By A. R.**

REPORT

As a part of students development activities a webinar on **"How the teachers should be ready to handle post pandemic educational challenges"** was organized by Chennai Institute of Technology on 17th July 2020 for students and Faculty.

1	Name of the event	How the teachers should be ready to handle post pandemic educational challenges
2	Date/Time	17.07.2020 @ 10.00AM-11.00AM
3	Chief Guest	Dr.H.Devang, Former Vice Chairman UGC, New Delhi
4	Name of the Organizer	Dr. Dhinesh Kumar
5	No. of participants	01
6	Mode of program	WEBINAR

Description about the Program

The objective of the Webinar on **"How the teachers should be ready to handle post pandemic educational challenges"** is to deliver the various techniques to handle post pandemic challenges. We are living amidst what is probably one of the greatest crises in our lifetime to global education, a gigantic educational crisis. As of March 28, 2020, the COVID-19 pandemic is causing more than 1.6 billion children and youth to be out of school in 191 countries. This is close to 85% of the world's enrolled K-12 students. We were already experiencing a global learning crisis, as many K-12 students were in school, but were not learning the fundamental skills needed for life. The World Bank's "Learning to Earn" indicator – the % of children who cannot read and understand at age 10 – stood at 59% of children in low- and middle-income countries – before the outbreak started. The pandemic has the potential to worsen these outcomes even more if we do not act fast.

Dr.H.Devang, Former Vice Chairman UGC, presented the webinar on **"How the teachers should be ready to handle post pandemic educational challenges"**. Prof. Dr.Siva, Professor CSE proposed vote of thanks. The entire programme was co-ordinated with the support of the Principal and

faculty members of the department of Computer Science and Engineering, Chennai Institute of Technology.

OUTCOME:

All the Participants expressed their gratitude to the Management and staff members of Department of Computer Science and Engineering, Chennai Institute of Technology for conducting the Webinar on **How the teachers should be ready to handle post pandemic educational challenges.**

Contents Delivered

The objective of the Webinar on "How to protect ourselves from Infectious Diseases" is to define the various techniques to protect ourselves from Infectious Diseases. The first line of defense is to keep germs at bay by following good personal hygiene habits. Prevent infection before it begins and avoid spreading it to others with these easy measures. Wash your hands well. You probably wash your hands after using the bathroom, before preparing or eating food, and after gardening or other dirty tasks. You should also wash up after blowing your nose, coughing, or sneezing; feeling or stroking your pet; or visiting or caring for a sick person. Wet your hands thoroughly. Lather up with soap or cleanser, and rub it into the palms and backs of your hands and your wrists. Be sure to clean your fingertips, under your nails and between your fingers. Rinse under running water. Dry your hands and wrists thoroughly. Cover a cough. Cover your mouth and nose with a tissue when you sneeze or cough, then dispose of it. If no tissue is handy, cough or sneeze into your elbow rather than into your hands. Wash and sanitize all cuts. Any surface cut

There are more job post offers in India as compared to the US and UK. As per the industry data, most hiring is happening for the below roles.

- Network Security Engineer
- Cyber Security Analyst
- Security Architect
- Cyber Security Manager
- Chief Information Security Officer

We also stated that Over the last a decade of years, the average salary of a Cyber Security professional has been increasing 85% but a lot of entry level IT professionals. The fresher are able to get good packages starting from 7 lacs and the experienced resources are in more demand showing salaries in the range of 20-24 lacs. Finally, Principals, Chennai Institute of Technology shared his experience and concludes in webinar on cyber Security(Scope and Opportunities) presented the subject on Webinar on Cyber Security(Scope and Opportunities) Dr. K. Ananth, Associate Professor, IIT. A packed vote of thanks.

The entire programme was co-ordinated with the support of the Principal and faculty members of the department of Computer Science and Engineering, Chennai Institute of Technology.

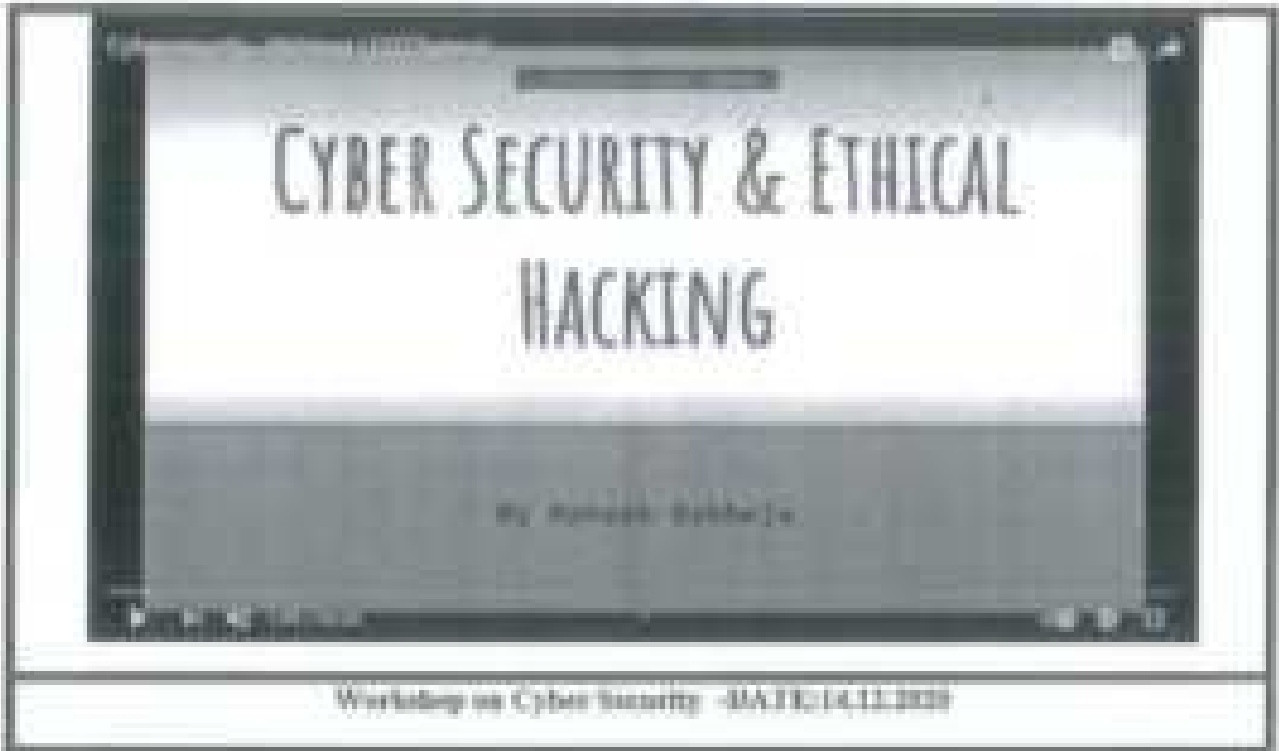

OUTCOME:

Students gained the knowledge on cyber security and they can implement it for the project based activities.

Summary

My name is Mahesh Rakheja, and I am a Public Speaker

"Real learner never show off. I am a Technical Public Speaker. I believe in being the technology rather than just learning. I am passionate about sharing and letting people enjoy the technology. Happily doing the task of encouraging people by conducting the workshops and seminars all around the world.

My satisfaction lies in "Thank you" notes and heart felt thankful gestures given by participants after each workshop. When I deliver the speech I always feel like king of the world and my audience becomes my kingdom. Before I start speaking I am the staunch believer of the thing that today I am going to deliver my best lesson as it is the last day of my life.

I love to learn from each and every moment of my life. Share my experience and express what I feel. I think everyone works for happiness and peace. I have both. Playing with technology gives me peace and sharing the technology gives the happiness. With God's grace, love of my family, friends and support of my participants, I debate people that I am achieving."

Machine learning at its most basic is the practice of using algorithms to parse data, learn from it, and then make a determination or prediction about something in the world. So rather than teaching software machines with a specific set of instructions to accomplish a particular task, the machine is "trained" using large amounts of data and algorithms that give it the ability to learn how to perform the task. Machine learning came directly from some of the early AI work, and the algorithms developed over the years included decision tree learning, inductive logic programming, clustering, reinforcement learning, and Bayesian networks among others. As we learn, more achieved the ultimate goal of General AI, and even Narrow AI was mostly out of reach with early machine learning approaches. Neural networks are inspired by our understanding of the biology of our brains – all these interconnections between the neurons. But, unlike a biological brain where any neuron can connect to any other neuron within a certain physical distance, these artificial neural networks have discrete layers, connections, and direction of data propagation. In Reinforcement

delivered the welcome address and Dr. Jayaraman delivered the key note and one of the talks. Murali Elakil, Vice President, Business Third, Innovation Learning presented the seminar on Machine Learning And Deep Learning, Prof. Dr. V. Hrudayana, Associate Professor/CSE presented one of the talks.

The entire programme was co-ordinated with the support of the Principal and faculty members of the department of Computer Science and Engineering, Chennai Institute of Technology.

OUTCOME:

Students gained the knowledge on machine learning and deep learning as the students are given advanced level training on online courses such as Coursera, Umooc, Digital etc.

REPORT

As a part of students' development activities a webinar series "Introduction to Python Programming" was organized by Chennai Institute of Technology on 11th November 2020 for a week and a half.

1	Name of the event	Introduction to Python Programming
2	Date	05.11.2020
3	Chief Guest	Dr. Jay Viswanathy, Director, Centre for CSE Education & Outreach, University of Texas, Dallas
4	Name of the Organizer	Dr. Dharmalakshmi
5	No. of participants	161
6	Mode of program	Webinar

Content Delivered

The power of complex data structures like lists, sets, dictionaries, and tuples to store collections of related data. CSE801 course – how and what have to define and document your own custom classes, write scripts, and handle errors. Lastly, they learn to find and use modules in the Python Standard Library and other third-party libraries.

Dr. A. Jamesh, Principal, Chennai Institute of Technology shared his experience and thought about Programming (CSE 801).

Dr. Jay Viswanathy, Director, Centre for CSE Education and Outreach, University of Texas, Dallas presented the webinar on "Introduction to Python Programming". Dr. Dharmalakshmi, Associate Professor, CSE proposed vote of thanks.

The entire programme was possible due to the support of the Principal and faculty members of the department of Computer Science and Engineering, Chennai Institute of Technology.

OUTCOME:

Students get an idea about the basic level of python programming as their students will gain knowledge on coding and they can participate in coding contest competitions.

REPORT

As a part of student development activities a webinar series "Sales skills: The secret to a successful life" was organized by Chennai Institute of Technology on 09th July 2020 for students and Faculty.

1	Name of the event	Sales skills: The secret to a successful Life
2	Date/Time	09-07-2020 @ 10:00 AM till 02:00 AM
3	Chief Guest	Mr. Ganapathy Venkatesan CEO Milestone Machines
4	Name of the Organizer	Dr. Lakshmanan
5	No. of participants	00
6	Mode of program	Youtube link https://www.youtube.com/watch?v=8Rg3U44K3LU

Contents Detail:

Introduction to career success in life, Sales skills, communication, self discipline, persistence, self confidence, negotiation, closing, What does a sales person do? (20) sales model, sales opportunities, Why sales is a great career option? (10) experience, role of sales person and customer, Sales cycle experience, (20) expert becoming a sales professional.

OUTCOME:

Students gained an idea in learning and relationship building skills. They identify focus on customer and a product can help solve their hopes, dreams and goals.

Summary

- Established an innovative state-of-the-art project (green field) for manufacturing PO Jans (Injection Stretch Blow Molding), PET perfume (Injection Molding) and plastic closures (Compression Molding) which focused on increase of the overall turnover. The plant is recognised as one of the best in the country.
- Profoundly developed the current manufacturing line, without major CAPEX which increased the production significantly.
- Instrumental in developing and maintaining Key major accounts like PepsiCo, Coca Cola, Parle, Buley etc over the years.
- Implemented International Standards – FSQC 2000 (ISO 2001:2008-PA6 223:2011) which ensured that the Manufacturing facility was approved by International buyers world over.
- Specially designed marketing strategies to launch the products very successfully in the International market. Have travelled extensively to visit potential customers in South Asia, South East Asia, Middle East, Europe and Africa. More than 20% of the organisation's turnover currently comes from exports.
- Individually devised a New Multi Product Division for enhancing the efficiency of the marketing department.
- Developed a focused strategy for localisation of spares and tools which lead to significant cost savings.
- Significant contributions to Product / Market development with specific focus on Customer needs.
- Was strategically behind launching systems and procedures to stream line production and wastage reduction.
- Focused vendor development led to more choice of suppliers and significant savings in costs and better payment terms.
- Handle cash flow management on a day to day basis and liaison with bankers.

PROFILE

Mr. P. Aravam is currently working as the Chairman of Chennai Institute of Technology and the Founding Managing Director of M.K. group of companies. Having been born in a poor agricultural family, he had to go through many hardships such as covering long distances on bicycles for education after working with his parents in farms or not having enough money for education. Not being a bright student who was never allowed to work hard he completed his AMIE in Mechanical Engineering while working in different companies, one after another.

Mr. P. Aravam was very instrumental in developing those generic and products, which were neither yet manufactured in our country, rather imported, which helped in reducing the cost of the products in the Indian market. With his strong urge and sincere efforts, he determined to take his students to great heights and new heights.

According to Mr. Aravam, an Engineer has to be a solution provider to the problems of the nation. Noticing their lack of ideas and skills among the graduates who couldn't meet the industry expectations, he decided to set up a training school program for the graduates. He established Chennai Institute of Technology (CIT), an Engineering college affiliated to Anna University and approved by AICTE, New Delhi in the year 2010. His dedicated efforts in this direction have driven the institution ranked among the top 10 institutions in Tamil Nadu within a period of 5 years.

One of the most important initiatives of Mr. Aravam is the establishment of Innovative Learning Program (ILP) across various industries. Through ILP, a platform has been created for students to interact with industry, engage in Industrial Projects and consultancy works, start-up on their own product, get trained on industry level, engage in Research and Innovation, which can transform a student to true engineer, which has been the Motto of Chennai Institute of Technology "Transforming Lives". All the programs are complemented by a strong industry/industry collaborations from China, Japan, and Germany, which offers language training, study abroad, internship and exchange opportunity to its students.

Overview

Summary

A versatile Human Resource professional with over 15 years of experience with proficiency in Business HR, Employee Engagement, Performance Management, Organization Development, HRIS, HR Audit, Internal Communication, Employee Relations, Knowledge Management, HR Analytics, Benchmarking of HR Practices and Policies, Employee Retention, HR Strategy and Employer Branding. Currently, I head the HR operations and is a part of the Strategic Management Team in EC Group Global Pvt. Ltd.

Being conferred with the "10 Most Awarded HR Leaders in India" Award for the year 2014 by World HRD Congress in Mumbai, India, "HR Leadership Award" by ASIA PACIFIC HRM CONGRESS 2014 and "Innovation in Retention strategies" and "HR Strategies in line with Business" awards by Asia Pacific HRM Congress in Singapore. I keep myself all the more inspired and ambitious to achieve more in the field of Human Resource.

HR has been my passion more than a profession.

Regular speaker in KICTACT's conferences and seminars, I have been a Key Note Speaker in ASIA PACIFIC HRM CONGRESS 2014 held in Bengaluru, India and write articles in magazines and Newsletters. In addition, I deliver guest lectures in various Universities and conducted workshops for Engineering, MBA students and teachers.

A passionate individual who cares and values Human Relationships, a person who can go an extra mile to build the lives of the deprived people and I strongly believe that one helping hand to a needy can make ripple of changes in their generations to come.

My heart goes for the needy people and I ensure to spend most of my available time in community development and social upliftment activities.
